

Research Officer

The EU DisinfoLab is looking for a Research Officer to document and unfold information disorders.

You will be in charge of:

- Monitoring disinformation campaigns;
- Reporting the findings of your research;
- Publishing your findings on our website or on other platforms;
- Contributing to developing new research methodologies;
- Assisting the team with project management, if any.

Your profile:

- You hold a Master's in Political Science and/or Social Science;
- You already have at least 2 years' experience;
- You are analytical, reliable, hard-working;
- You are news-savvy, curious and with an affinity for explaining and unfolding complex issues;
- You have excellent report writing skills and high standards of work;
- You have a good understanding of social media platforms;
- You have an excellent level of English and French and can maintain high standards of writing in both languages. Additional languages are an asset;
- You know how to use the Microsoft Office suite.

Our offer:

- Permanent contract;
- A growing team working in an excellent atmosphere;
- Tailor-made training;
- Constant learning experience;
- Travel abroad.

Who we are:

The EU DisinfoLab is a vibrant home for activists and experts in Europe to effectively tackle sophisticated disinformation campaigns targeting the EU, its member states, core institutions and core values.

To these ends EU DisinfoLab:

- develops and maintains ***the main European platform on disinformation***;
- ***monitors disinformation activities across the major platforms*** (digital and traditional), identifies trends and threats;
- regularly makes ***policy recommendations*** at the EU level and to member states;
- ***organises regular seminars, forums, meetings*** and other events to assemble activists, researchers and experts to share experiences and tools.

The job is located in Brussels, Belgium.

Please send your application with 3 professional references before 12th June directly to recruitment@disinfo.eu with the subject "Research Officer".
