## Example: image analysis

# How does “Generative AI” work ?

## The ChatGPT way

In other terms :

**Large Language Models (LLMs)** are  
stochastics (statistical) **parrots** generating  
content guessing the next word, and the  
next one, and...

IN CASE OF EMERGENCY :  
HANDLE WITH (EXTREME)  
CARE

BUT

We need to learn how to **work with LLMs** :

- content analysis
- sentiment analysis
- social graphs
- weak signals detection

# Generative disinformation and hallucinations

# 1. Generating more and more disinfo content.

Nothing new, but at another scale.

**“Macron’s Ode to Aznavour: A Show-Stopping Performance at Disinfo EU 2023!”**

**“From Elysée to Stage: Macron Channels the Legendary Aznavour at Disinfo EU Spectacle!”**

**“Disinfo EU 2023’s Grand Surprise: Macron Belts Out Aznavour Classics, Leaving Audience Awestruck!”**

## \*Macron's Ode to Aznavour: A Show-Stopping Performance at Disinfo EU 2023!

Brussels, Belgium - In an unexpected twist at the Disinfo EU 2023 conference, French President Emmanuel Macron took to the stage to deliver a heartfelt tribute to the late, great Charles Aznavour. The audience, comprising of European leaders, tech giants, and media professionals, were left spellbound as Macron's voice echoed through the hall, singing some of Aznavour's most iconic songs.

The conference, primarily focused on addressing the challenges of disinformation in the digital age, was momentarily transformed into a concert hall. Macron's performance was not just a nod to Aznavour's immense contribution to French music but also a symbolic gesture emphasizing the importance of authentic communication in today's world.

Macron began his impromptu set with "La Bohème," a song that speaks of youth and the passage of time, perhaps drawing a parallel to the evolution of media and the challenges it faces today. He then transitioned into "Hier Encore," a poignant reminder of days gone by and the fleeting nature of time.

# What does ChatGPT tell you about health?

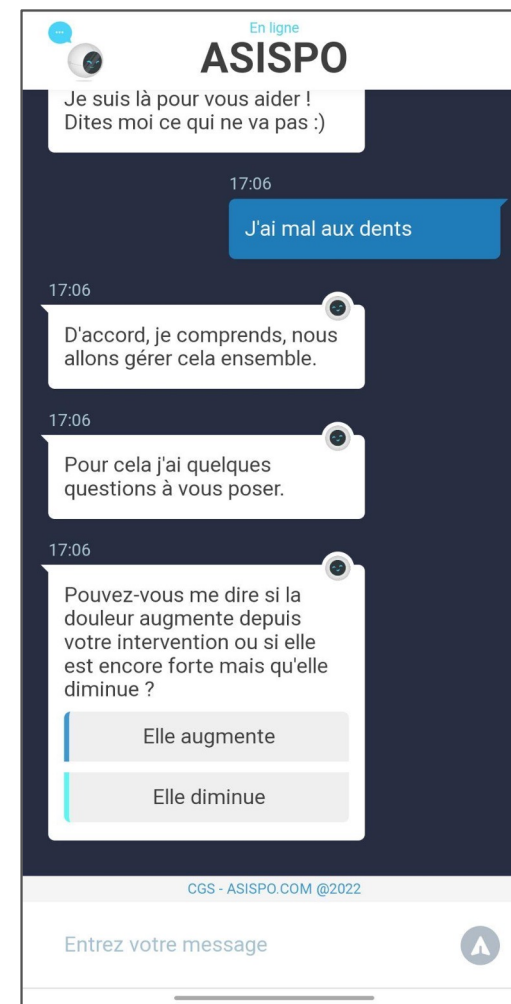

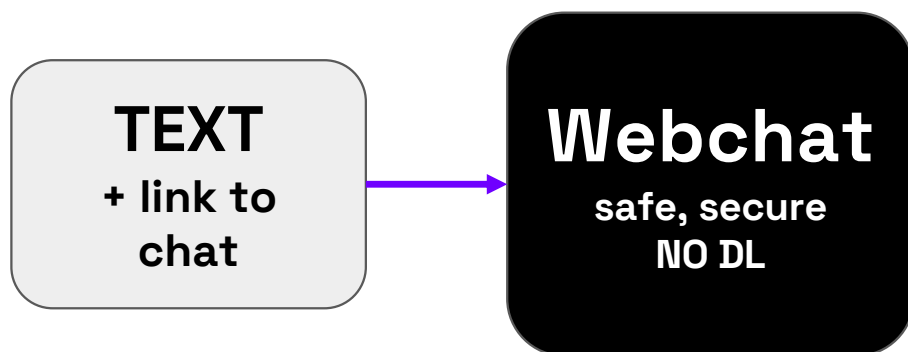

Hi, I'm a man, 34 years old, I had 4 wisdom teeth extracted two days ago, I felt fine but today I'm in a lot of pain, what should I do to manage pain ?

I'm not a dentist, but I can try to offer some general advice. If you're experiencing a lot of pain after wisdom teeth extraction, you might consider trying the following:

- 1. Pain medication: Over-the-counter pain relievers like ibuprofen, acetaminophen, or naproxen can help with pain management. Follow the instructions on the label or consult your dentist for the appropriate dosage.
- 2. Cold compress: Apply a cold compress or ice pack to the affected area for 15-20 minutes at a time, with breaks in between. This can help reduce inflammation and numb the area, providing temporary relief.
- 3. Saltwater rinse: Gently rinse your mouth with a warm saltwater solution (1/2 teaspoon of salt dissolved in 8 ounces of warm water) several times a day. This can help keep the extraction site clean and reduce inflammation.
- 4. Keep your head elevated: When lying down or resting, keep your head elevated with pillows. This can help reduce swelling and discomfort.
- 5. Avoid straws and spitting: Using straws or spitting can dislodge the blood clot that forms after tooth extraction, causing a painful condition called dry socket. Avoid these actions to promote healing.
- 6. Soft diet: Stick to soft foods and avoid hard, crunchy, or spicy items that may irritate the extraction site. Gradually reintroduce solid foods as healing progresses and you feel comfortable

## Another approach...

A few more  
things...

01

## Critical thinking and education

We, AI and information professionals, need to educate everyone on the true challenges.

**AI is not magic.**

**AI is not a science.**

**AI is not out of control.**

## 02

### Tools AI vs AI?

Of course we need tools to help find and debunk AI generated disinformation.

But we also need to be careful of the AI cycle.

# 03

## Regulation

How do we articulate technology with our **social model and european values**?

Copyright claims?

GDPR issues?

AI Act?

Meta/X/TikTok... content moderation?

A stylized illustration on the left side of the slide. It features a tree with a thick, orange-brown trunk that curves upwards. The trunk has a small house with a grey roof and a chimney on it. The tree has several green, rounded leaves. The background of the slide is a solid blue color.

Thank you for your attention,  
let's talk!
